Why Bake These Warm Days

There is no good reason for any momen, housewife or servant, to stand ever a het stove and bake bread these days. Ne woman, no matter how goed a cock she may be, can improve on our bread in purity, in taste or in whole

It isn't possible to produce as good bread as ours with only a regular cocking range to work by. It takes special evens and special scientific proparation to get just the right degree of even temperature to produce the even temperature to produce the how much you may know about bread baking you cannot accomplish that re-suit to as fine a degree as we can.
